### STYLE

The Taurean® Classic Sectional Door range combines contemporary and traditional influences. Select from four profile options and finish in your choice of COLORBOND® steel colours.

### STRENGTH

Panels are made from 0.6mm thick steel to ensure strength and uniformity. Steel hinges add strength too.

### SAFETY

Taurean® Classic Sectional doors are designed with your family's safety in mind. The panels are joined in a way that prevents little fingers from getting caught, and the profile helps minimise any risk of injury.

### BALANCE

Beautifully balanced springing ensures the door runs smoothly every time, maximising its performance to 25,000 cycles – a lifetime of home use.

WESTERN IN SHALE GREY™

At Taurean® Door Systems we've designed and manufactured an exceptional range of strong and stylish doors and shutters and have the track record to prove it. As a wholly owned subsidiary of Stramit, we draw on more than 30 years of industry experience to create high quality, Australian made doors for domestic and commercial garages, sheds and storage facilities.

### The new Classic Sectional door range

Taurean® Door Systems is proud to introduce our latest range of sectional doors to Australian homeowners.

The Classic Sectional Door range is available in two styles – smooth and embossed – and four luxurious profiles. And you can select a colour to suit your home from the complete range of COLORBOND® steel colours.

More than ever before Taurean® Door Systems leads the way with stylish design combined with exceptional quality.

### Precision door panels

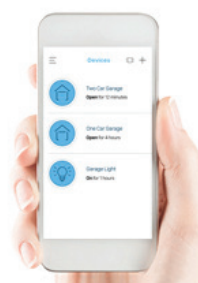

Our fully computerised manufacturing process ensures consistency. Uniform door panels are precision engineered every time.

### Automation

Taurean supplies and recommends the Merlin and Grifco ranges of door openers. These door opener products offer security and peace of mind, and paired with their myQ smart home technology deliver powerful automation options.
