

STRAMIT[®] QUARTER ROUND GUTTER

Designed with
Western Australia in mind

KNOW YOU'RE COMPLIANT WITH WESTERN AUSTRALIA'S VERY OWN SOLUTION

Designed with the Western Australia homeowner in mind, the Stramit® Quarter Round Gutter offers a streamlined architectural look while standing up to Western Australia's harsh elements.

NEW DESIGN MEETS FUNCTIONAL PERFORMANCE

Offering a distinctive look, the Stramit® Quarter Round Gutter offers a unique profile, available slotted or unslotted. It has a straight back and a base that gently curves to create a beautiful architectural line for any home. Designed to support all Western Australia rebated fascia types. It can also be supplied as a complete system with compatible fascia and downpipes plus rainwater products and accessories.

A SOLUTION FOR ANY HOME

It's perfect for those looking to build from scratch, renovate or replace — no matter if it's a free standing home, residential unit complex, apartment block or townhouses.

TESTED FOR PEACE OF MIND

Tested in Stramit's very own national testing facility, the Stramit® Quarter Round gutter is proven to comply with the National Construction Code 2019 overflow requirements. Contact us today for further information, including how the data stacks up.

MADE BY LOCALS, FOR LOCALS

Available quickly within 48 hours from order placement, the Stramit® Quarter Round Gutter is manufactured from our Perth facility for those needing a fast, quality solution. Made to order products are also available upon request, by contacting the Perth Stramit team.

CHOOSE YOUR FINISH
